

APBC for Seattle and

KOMO

the Puget Sound Country

100 FOURTH AVENUE NORTH • SEATTLE 9, WASHINGTON

Dear Friend:

We want to acknowledge, with our heartiest thanks, your kindness in advising us that you heard KOMO during a recent broadcast testing our new 50KW power at 1000 kilocycles.

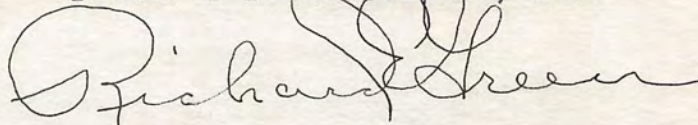

We expect, within a short time, to be broadcasting regularly on this new power. We hope you will be among our many regular new listeners which we will be reaching as a result of our increased power.

Recently KOMO completed new studio facilities and we thought the attached souvenir booklet, a copy of which was given to each of the more than 20,000 people visiting our new facilities during the four days of our public opening, might be of interest to you.

All good wishes!

Very sincerely,

Fisher's Blend Station, Inc.
