ALWAYS AT *Your* SERVICE

March 29, 1950

Mr. David F. Thomas
Proctorville, Ohio

Dear Mr. Thomas,

Sorry that you were unable to hear KOMW on the morning of March 24, 1950.

KNBC did not leave the air until 1:05 A.M. PST so, the signal you heard must have been them. KOMW was on from 1:00 A.M. until 1:32 A.M. PST.

If you have not already logged KOMW and still wish to do so, we are on the air every forth Friday. Or rather, the forth Friday of every month, for a frequency check. Should you be listening at that time, you'll probably be able to catch us yet.

The main trouble on March 24th must have been poor conditions in your area. We were received with good strength at Marcus, Iowa according to one report I received.

Agin, I'm sorry that you could not hear us and invite you to listen the forth Friday of each month at 1:00 A.M. PST for our regular freq. check.

Yours truly,

Kirk W. Springer
Chief Engineer
