Mutually Serving Upper Michigan and Northern Wisconsin

J. W. HUSS, Manager

Mr. David F. Thomas
Proctorville, Ohio

Dear Mr. Thomas

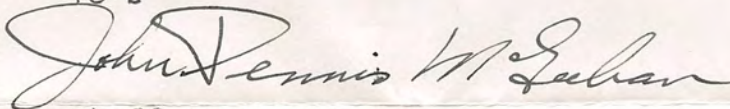

This is to acknowledge and verify your reception of our frequency check program, 3:00 to 3:30 A.M. Central War Time, Wednesday January 5th, 1944.

Each month on the first Wednesday, we conduct our regular frequency check with the Commercial Radio Equipment Company, 921 East Gregory, Kansas City, Missouri. Our Station is owned and operated by the Upper Michigan-Wisconsin Broadcasting Company Incorporated, and is operated on a federally assigned frequency of 1400 kilocycles. WATW is operated by Gated 100-A All American equipment, and is transmitted via the Shunt-Fed method, on an authorized power of 100 watts.

Ashland, known as the "Gateway to the Apostles Islands" is situated overlooking beautiful Chequamegon Bay. Our city is wholly an ore exporting port, and boasts the 2nd largest ore docks in the entire world.

We extend to you the invitation to listen in some future date to our Regular Monthly Frequency Check, conducted on the first Wednesday of every month, from 3:00 to 3:30 A.M.
