

The Tierney Company OPERATORS OF

CBS RADIO NETWORK

RADIO STATION

WCHS

CHARLESTON 24, WEST VIRGINIA

November 21, 1952

Mr. David F. Thomas  
Proctorville, Ohio

Dear Sir:

I was very glad to receive your confirmation of listening to WCHS. Particularly with respect to the kind of reception that you report. It is this type of report that lends weight to coverage claims.

We are pleased to verify your reception on November 17, 1952 from 7:30 am to 9:00 am E.S.T. of the Clock-Watcher program on WCHS.

WCHS operates with the power of 5000 watts night and day, 24 hours each day. We are directional antenna from local sunset to sunrise and frequency is 580 kc. Directional antenna is beamed to the East by South East. Radiation towards your location is less than 500 watts while using directional antenna.

Thank you very much for the letter. Please write again if you have something you think would be of interest to us.

Yours very truly,

*W. E. Dixon*
