

David F. Thomas Radio W.U.M.S.

Dear Mr. Thomas:

Thanks for the very nice letter concerning WSAZ/WGNT.

It is interesting to hear from some one who knows about the history of this station at this 50th anniversary.

I do know some of it myself. For I have been with this station for 30 years!

Also it is interesting to hear from one who "considers the heavens". OK on the trip to Africa to see the total eclipse.

Hope you make it "down under" to see the 5 minute one. How about Nov. 10 when Mercury transits the solar disk. And Comet Kohoutek. There are lots of interesting things to observe up there.

Thanks,
And keep listening.

Carroll Kessell
