

WICH-1310

August 28, 1995

Mr. Phil Greenspan
101 Forge Lane
Marshfield MA 02050

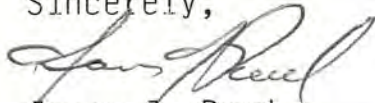

Dear Phil:

Please consider this letter as **verification** of reception of **WICH Radio** on **April 25, 1995**. We've checked the information you provided on your QSL report with our program logs and find the information accurate.

WICH broadcasts with 5 kw day & night with separate directional patterns. We utilize three towers in-line with a height of 351 feet above ground. Our main transmitter is a Rockwell-Collins 828-E-1. Our auxillary transmitter is a Gates BC-5P-2 5-kw. Our daytime pattern is primarily east-southeast with a lobe to the northwest. Our night array is strictly south-southeast. (Minus the lobe to the northwest. WICH operates 24-hours a day with a "full-service" format with local personalities and a heavy local news committment. (Three full-time newspeople). At night and overnight, we broadcast "Talknet" programming which includes the Bruce Williams Show and Jim Bohannon.

Thanks for the QSL report. Please find enclosed, a copy of our daytime coverage map. If you're ever in our area, please stop by !

Sincerely,

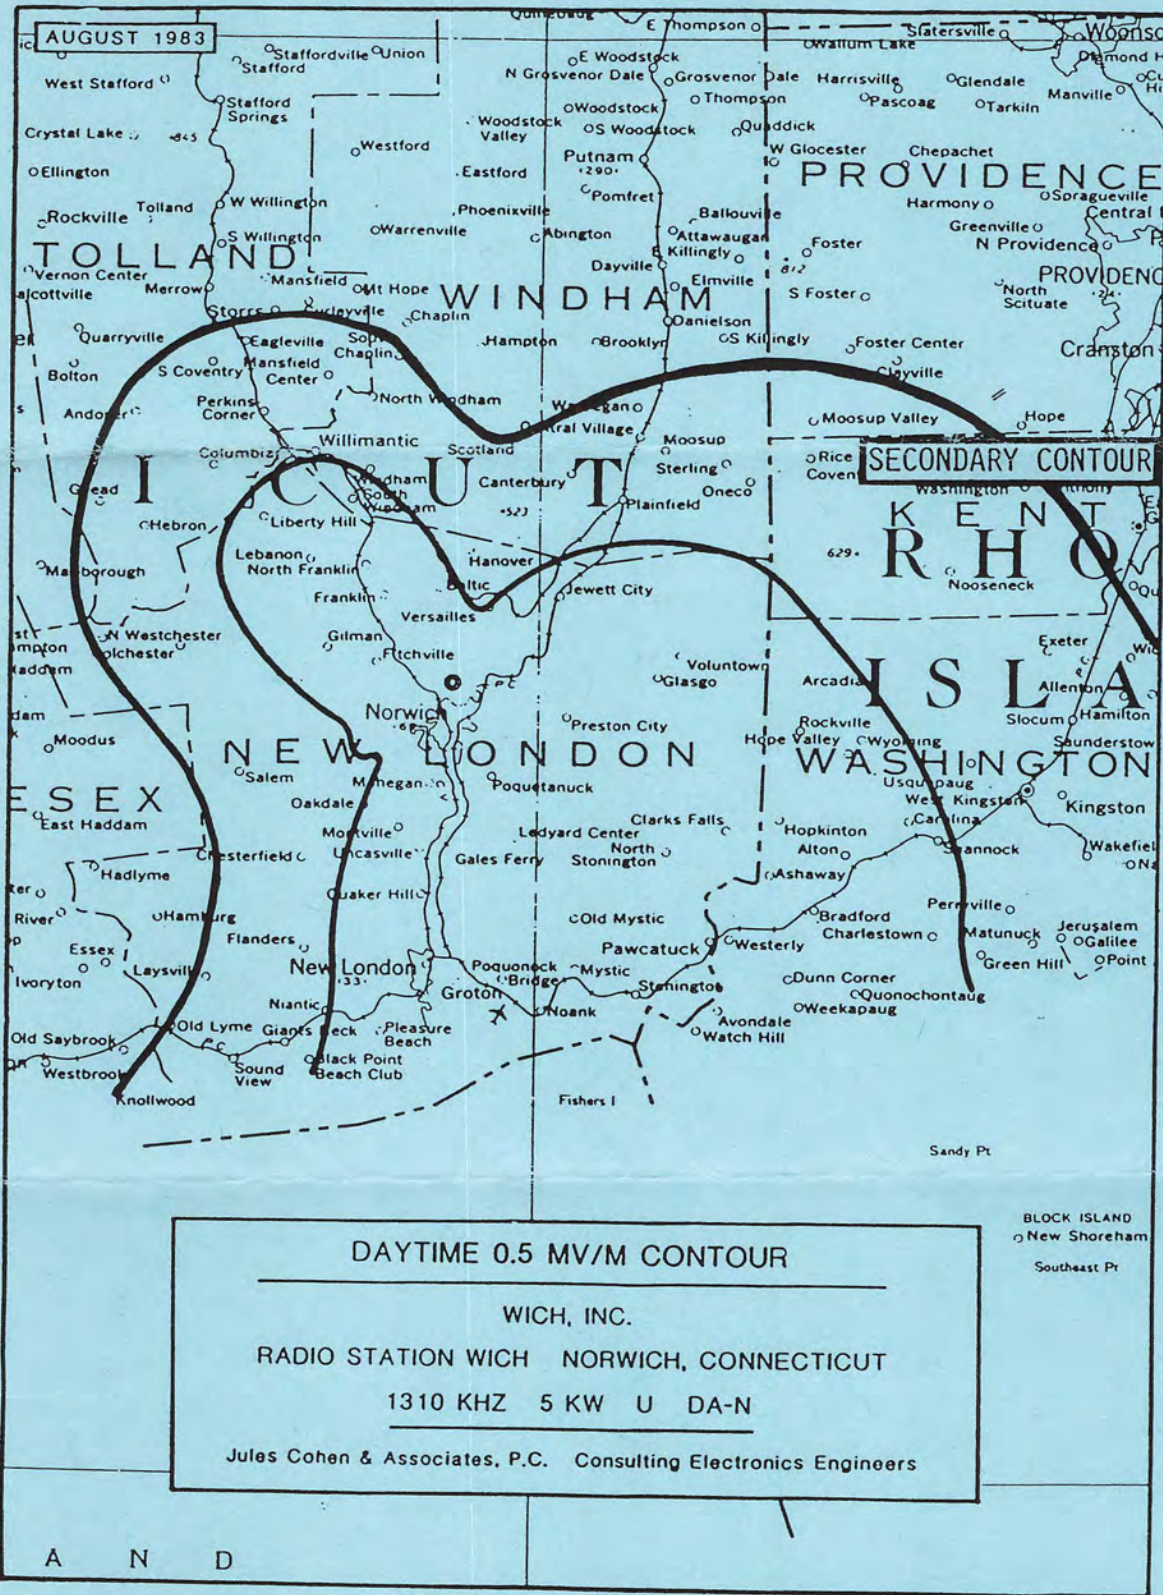

James J. Reed
Vice President & General Manager
