Marshfield, MA 02050

Dear Phil :

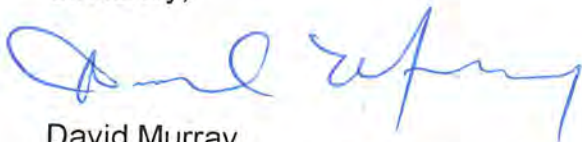

In reference to the letter you sent regarding 540 WWZN and the signal you received, we are confirming your information is correct. The programming information you included was also consistent to that of our logs.

We appreciate your letter and find it extremely exciting that our reception is so strong. We certainly hope that you will continue to monitor and listen to our station, with hopes that you enjoy our programs.

We have somewhat recently changed our format and wattage, which has proved to be prosperous. We seemed to have gained listeners countrywide, great!!

Thanks once again for writing!

Sincerely,

David Murray  
Technical Director of Operations
