Dear Mr. Greenspan:

I'm writing in response to your letter from October 1995. I apologize for taking a year to get back to you but your letter was mislaid and I didn't find it until recently. I do want to confirm that you did receive our signal on that day. I wonder what type of antenna you use to pick us up in MA. I would be interested in finding out and would appreciate hearing from you.

Once again, I apologize for taking so long to get back to you. Thank you for your letter and may God bless you.

In Christ's Service:

A handwritten signature in blue ink that reads "Michael".
