Hi Phil,

Sorry about the delay in getting back to you. I thought one of the tech services folks had looked after it.

Anyway I'll confirm it was C-hi (C-HI at 1260AM) you received on Oct 17/95. You might want to try our 50K clear channel station CFNB at 550 before it goes dark at the end of June - we're flipping the format to a new FM.

Back to C-hi for a minute. Because of WEZE our night pattern tucks in and creates a real problem for our listeners in the suburbs south of Fredericton. We finally received an OK from the CRTC (Canada's FCC) to add a couple of FM repeaters to cover these areas*. A full flip to FM is likely within the next 2 years.

* In 1990; C-hi AM went on air in 1977

We've been lucky here
on Canada's east coast.
An AM station playing
contemporary music can
still get pretty good numbers.
All the best,
Tom Blizard
Group Program Director
