

October 30, 1995

Please confirm for my records receipt of your transmission signal as follows:

Call Letters: WGSM
Location: Huntington, NY
Frequency: 740
Date: October 28, 1995

Time:

0742 EDT - id "New Country 740"
0743 EDT - replay? of Hofstra/Buffalo football game

The signal was relatively strong but fading in and out. Usually you are blocked by WJIB in Boston, MA and/or CBC but this AM you were coming through with interference from WJIB. There was a large storm coming from the southwest which may have assisted in receiving your transmission as well as the clarity of the announcing and the teams named frequently. I would appreciate your confirmation of the transmission and any information on your station and programming.

The signal was received at Marshfield, Massachusetts, a coastal community 30 miles south of Boston, Ma.

Enclosed is a self-addressed, stamped envelope.

Phil Greenspan
