Dear Philip:

Thank you for your reception report from February 10, 1995. I am please to send you our official WKNR QSL card, and a magnet for the 'fridge. I am familiar with Marshfield; I went to Boston University and worked for both WBZ and WHDH. Jobs in Boston Radio have dried up and so I came out here to the Western edge of the Northeast last year. Only about 5,000 watts of our signal is heading your way. The big lobe with about 400,000 watts in it heads North over Downtown Cleveland and over Lake Erie. QSLs from Sweden and Finland are not uncommon this time of year. Happy listening and thank you for your report.
