Phil Greenspan
101 Forge Lane
Marshfield, MA 02050
U.S.A.

Dear Mr. Greenspan:

We acknowledge that it was CHIN RADIO 1540 that you heard on October 10, 1995 and would also like to inform you that we have a sister station 100.7 FM. The program you heard was the South Asian program.

CHIN Radio can be heard in certain parts of the U.S. with the help of a satellite dish, frequency -- (ANIK E-1, 7.875 MHz, Transponder 1(B), Channel 2, C-Band).

During the winter months, we receive reception reports quite often from various parts of Europe and the U.S. We have already received quite a lot for the year from Finland, Sweden, Germany and the U.S. Quite recently we also received reports from Italy which is very rare. A few times we have also received from England.

Enclosed please find as a souvenir a program schedule, a QSL report and a sticker for your interest and enjoyment.

Thank you for sharing your reception report with us. We wish you all the best in your future endeavours and in your hobby dx-listening.

Sincerely,

Cathy-Ann Percy
