Subject: Acknowledgement of Reception

This is to acknowledge your reception of 610 CKTB. Your programming list matches our transmission schedules.

CKTB is a 10kW day / 5kW night single directional array. The antenna is a 5 tower inline array with the main transmission lobe directed in a northerly direction. The transmitter is located on the Niagara Falls and Welland border.

Your reception comes as a surprise since our signal is directed directly away from your location. Also there are numerous stations in the U.S. market on 610kHz such as WGIR and WTVN in Columbus Ohio at 50kW.

Your reception is one of the few that I have received from the east coast.

CKTB is a news and talk radio format starting at 6:00am with David Forrester and Daybreak. A show which combines interesting guests and call in segments with newscasts every 20 minutes.

At 8:30am we start the John Michael show. John has been a talkshow host for 30 years and runs a completely open line format allowing listeners to call in and voice their opinions on the topics of their choice.

At 12:00 we have a show called Hour St.Catharines, a one hour package of news and information, with a 1/2 call in show with varying topics.

At 1:00pm we have the Tim Denis show. Tim brings in various guests such as authors, actors, local experts on topics ranging from auto

mechanics to
computer experts and allows callers to call in and ask
questions.

From 5:00pm until 5:30pm we have a 1/2 news wrap up called
"Today at 5"
covering the days events including stock reports, medical new,
local news
and sports.

From 5:30 pm until 7:00 pm We have "The Aquarian Age".
Astrologer Anne Toth
hosts an interesting show where callers are allowed to call
in for answers
to their questions. Each night Anne has a different theme,
Tarot, Dream
interpretation, Astrology, relationships, etc.

After 7:00pm CKTB begins ethnic programming with Radio India.

From 3:00am until 6:00am we have Music 'til Dawn which is a
collection of
Big Band hits and music up to the 50's and 60's.

Hope this provides you with a little bit of background
information on CKTB

Sincerly,

Joe Gurney
Director of Engineering
610 CKTB & 97.7 HTZ-FM (CHTZ)
