DEAR PHIL: I ENJOYED GETTING YOUR LETTER
THE OTHER WEEK ABOUT YOU HEARING MY STATION UP IN MASS.

AS TO THE QUESTIONS ABOUT IF WE WERE
OPERATING AT HIGH POWER OR LOW POWER WHEN YOU PICKED
US UP, WE WERE AT NIGHTTIME POWER OF 17 WATTS USING A OMNI-
TRONIX 1000A TRANSMITTER ON LOW POWER FED TO OUR SINGLE
STICK (NON-DIRECTIONAL TOWER) TOWER WITH A HEIGHT OF 165'
WE RECEIVE A DX LETTERS FROM NEW ENGLAND SEVERAL TIMES
A YEAR., ESPECIALY FROM YOUR AREA (BOSTON METRO/CAPE COD)

THE ONLY EXPLANATION WE CAN COME UP WITH
IS THAT SINCE THERE IS ONLY ONE STATION IN NEW ENGLAND
ON THAT FREQ (1590) PROVIDENCE, RI. AND THE FACT THAT
WQQQ IN WATERBURY, CT WENT DARK WE FIGURE THAT WMIM JUST
BEAMS UP THERE LIKE A MONSTER.

THANK YOU FOR YOUR INTEREST IN WMIM-AM AND
I HOPE YOU AND YOURS HAVE A SAFE AND HAPPY HOLIDAY SEASON..
