Dear Phil,

Our g.m. came back from vacation today and gave me your reception report. You may have received us. Let me try to explain. We broadcast on both 1200 and 1400 AM at 2331 on 20 December 96 we were carrying The Best of Jim Bohannon from Westwood One, not Michael Reagan. So most of your report is accurate. We should have been at 250 watts non-directional at that hour. WRKK is 10,000 watts directional during the day hours. WRAK @ 1400am is 1,000 watts at all times. The two signals simulcast. These two stations are news/ talk 24 hours a day with some sports play by play.

Thanks for taking the time to write and good luck on the ongoing task of receiving all us radio folks. It always interesting to see where the reports come from.
