101 Forge Lane  
Marshfield, MA 02050

Hello Phil:

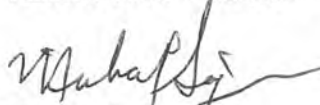

A check of our Program Log for February 27, 1995 show's that you did indeed receive WVMT's signal. WVMT is Vermont's oldest and largest AM radio facility operating full-time at 620 KHz in C-Quam AM Stereo with 5000 watts day and night through a three tower directional array.

I'm pleased that you were able to receive us as we have recently completed rebuilding our antenna system. Among other things, we increased our tower height from 300 to 400 feet. The enclosed coverage map shows our basic pattern.

Thanks for the reception report.

Very truly yours,

VERMONT RADIO

Michael Seguin
