

PAPE BROADCASTING COMPANY • MOBILE, ALABAMA

January 2, 1951

Mr. Paul A. Thomas
Proctorville, Ohio

Dear Sir:

This will verify **your** reception of WALA on Monday,
December 25th.

Our transmitter is located at Cochran Bridge Causeway at the head of famous, old Mobile Bay, and is an RCA 5DX. Our towers are located at sea level, and are 212 feet tall. We operate on 1410 kilocycles with a power of 5,000 watts, day and night using directional antenna at night. WALA is on the air from 6:00 AM until 12 midnight.

It is a pleasure to acknowledge your reception of our station and we hope that you are successful in picking us up again.

Hope you tune in WALA again, and often, and if you are ever in this part of the country, I will be glad to have you drop in and inspect our equipment.

Cordially yours,

R. B. Hurley
