Mr. Paul Thomas  
Box 1614  
Proctorville, Ohio

Dear Mr. Thomas:

We received your very nice letter advising us that you heard our frequency measurement on April the twelfth. We were on that morning from 2:30 to 2:45 CST, which of course coincides with your 3:30 to 3:45 EST.

We appreciate your letter and perhaps you'll be listening again on April the 26th, when we will again conduct a frequency measurement.

Best of luck to you and the National Radio Club.

Very truly yours,  
WIREGRASS BROADCASTING CO.
