

WTUX

WILMINGTON, DELAWARE
1326 MARKET STREET TELEPHONE 5-8821

December 12, 1951

Mr. Paul A. Thomas
Proctorville, Ohio

Dear Mr. Thomas,

This will verify your report of reception of our 95% signals on our test of 19 November, with your RCA table model receiver. Your log, though spotty in places, was quite sufficient to identify our program. You are the only one who understood that the Cristina river was a tributary of the Delaware. Others had it as the boundary of Delaware.

We thank you for your trouble in making this report. Although we did get fair reports as far west as Omaha, it seems that we don't get out too well south, except locally. Some from Virginia, but mostly from New England. Got one from Newfoundland.

If you are interested in further DXing, the undersigned will next be at KBNZ. It has been noted that KBNZ has been heard, but perhaps you could use a special program. If so, don't fail to get in touch with us at that address. Thanks again for the staff at WTUX and Season's Greetings from them, and also from

R. S. Houston

P.S. Please excuse tardiness of report. Too many replies.
