

MIAMI'S
FIRST
STATION
560 K.C.

Dear Mr. Thomas,

This note is to verify that our logs agree with your reception report of WQAM at 2:35 to 2:50 AM, November 26, 1949.

WQAM broadcasts with a power of 5 KW day, 1 KW at night, using a GE transmitter feeding a 380 foot Blaw Knox tower located 250 feet offshore in Biscayne Bay at NE 14th St. Miami, Florida.

Thank you very much for your report,

Cordially,

Gene Rider
