

Thank you for your letter. We are pleased to verify your reception of CBW.

This station was officially opened on September 3rd, 1948. Powered at 50,000 watts, it replaces the 15,000-watt transmitter CKY, on a clear channel frequency of 990 kc.

CBW, owned and operated by the Canadian Broadcasting Corporation, is located at Carman, Manitoba, fifty miles from its Winnipeg studios. It forms a link in the chain of high powered regional transmitters, extending across Canada from the Atlantic to the Pacific Coast.
