

KPIG

CEDAR RAPIDS BROADCASTING CORP.

"THE CUTEST FACE IN RADIO"

211 FIRST STREET S.W.
CEDAR RAPIDS, IOWA

Mr. Paul A. Thomas
Box 1614
Procterville, Ohio

27 March 1956

This is in reply to your letter requesting varification of our Station.

KPIG, Cedar Rapids, operates on an assigned frequency of 1450 kilocycles with an authorized power output of 250 W. We are using a 300G Collins Transmitter operated by remote control. Our antennae is 183 ft. $1/4$ wavelength long.

Frequency tests are made every 2nd Sunday of the month from 1:10 to 1:25 AM (CST).

Please excuse the delay in my answering your letter and feel free to write us for any additional information which you may need. If you are ever in this area and would like to see our equipment setup, drop in and see us.

Sincerely,

LaMar D. Hay
