BLOOMINGTON, INDIANA

Sept. 11, 1950,

Mr. Paul A. Thomas,
Proctorville, Ohio.

Dear Mr. Thomas:

This is a verification of your reception report on Sept. 8, 1950, from 2:00-2:15 AM, CDST, of our signal. We conduct a frequency check with the Commercial Radio Monitoring Co, Kansas City, once a month, using a one thousand cycle tone with identification every three minutes.

We are a 250 watt full time station, and use Gates equipment throughout, antenna is 186 ft. high, and shunt fed.

We receive several reports of reception on these test transmissions, and always welcome them. Your letter indicates that you received our signal, and we are happy to verify this at this time.

Thank you very much, and good DX'ing; in the future:

Sincerely Yours:

E. Keith Nyfeler,

E. Keith Nyfeler

Radio Station WTCM,
Bloomington, Indiana.
