RAY L. KOZAK, MANAGER

January 27, 1952

Paul A. Thomas
Proctorville, Ohio

Dear Mr. Thomas:

It is with considerable pleasure that I "VERIFY" your DX report of January 20, 1952.

With an interfering signal of S-7 recorded at our transmitter, it was anticipated that very little response would be obtained to this test broadcast. However, the number and location of reports thus far received greatly exceeds our maximum expectation.

We wish to express our grateful appreciation for your participation in this test broadcast and we wish you the best of clear signals for future DX'ing.

Yours very truly,

RADIO STATION K M A N

Herbert P. Lavin
Chief Engineer
