Paul A. Thomas
Procterville, Ohio

Dear Mr. Thomas:

Thank you for your report of reception of KRTN signals on September 8, 1950, from 1:16 AMMST to 1:25 AMMST. Information included in your report indicated that you actually heard KRTN, and this letter is your verification.

This writer remembers receiving a card such as you sent from Procterville, Ohio some time back. In looking through our DX file we found that David F. Thomas sent us a report on our frequency monitor broadcast of February 10, 1950; and we sent verification February 19, 1950.

Thank you again for your report.

Very truly,

Julian H. Lendy
