12 May 1952

Paul A. Thomas
Proctorville,
Ohio

Dear Mr. Thomas;

Received your letter on reception of the DX Program broadcast by Radio Station ACE, San Juan, Puerto Rico, 31 March 1952 from 0900 to 1000 GMT.

We are very happy to Verify your listening reception Comments.

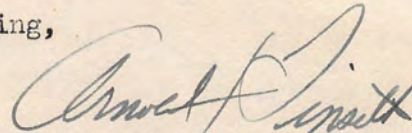

Thank you very much for the comments, the Engineer was impressed by the helpful comments of the many members of the National Radio Club and many of them have proven to be quite helpful and constructive.

We are now anticipating the arrival of a new 1 KW transmitter with tower and in the future would be happy to broadcast another DX Program. We could then provide better coverage to all DX'RS.

As it is now we are rather proud of the redesigned surplus high frequency Signal Corps transmitter operating at 200 W with antenna on a diagonal line 30' to 60' elevation, 153' long running North East by North and South West by South.

We received a total of 25 comments from various places up and down the East Coast from Elizabeth City N.C. to Gloucester, Mass - Ontario, Canada - North Girard, Pa., Glencove N.Y., Paxton Ill., Ohio, Tennessee, and one from Vallojo, California and also one from Albuquerque, New Mexico. Various others from the State of Pennsylvania and New York and the Brooklyn Area. Our thanks to you all for a good job and;

Continued good listening,

ARNOLD J. TINSETH
Station Manager
AFRS, Station ACE
