Box 1614
Proctorville, Ohio

Dear Sir:

This letter is verification of your reception report of K W F R on 25th March 1956. I wish to thank you for your report and hope you have a chance to hear K W F R again would like to hear from you.

K W F R is a 1000 watt all Collins equipment station in the heart of West Texas. At present there are four radio and one TV stations in San Angelo. A recent Conlan Survey shows K W F R to be the number one station in this market listener and program wise.

San Angelo is a city of some 75,000 people located 275 miles South West of Dallas, Texas. Ranching and oil are the principal interests. The three Concho rivers meet near San Angelo and the old "Fort Concho" still stands within the City limits as a memento to Texas history.

Sincerely;

A handwritten signature in blue ink that reads "Art Henderson".

Art Henderson
Chief Engineer
