

Dec. 29, 1951

Mr. Paul A. Thomas  
Proctorville, Ohio

Dear Mr. Thomas:

Thanks very much for your letter of Dec. 17, 1951 in which you requested verification of KLO's signal in Proctorville Ohio. I have checked your letter against our log and find it to be correct. We were making audio checks that night having just installed a modulation transformer.

KLO operates at the present time from 5AM till 1AM local time with a power of 5000 watts. We feed a three tower directional antenna system with the maximum signal being radiated in the northeasterly direction. (39° true).

Thanks again for your report and I wish you luck in your DX listening.

Yours truly,

A handwritten signature in cursive script that reads 'Wayne T. Boothe'.
