

WLEE

MUTUAL NETWORK • LEE BROADCASTING CORP.

THOMAS TINSLEY, President
IRVIN ABELOFF, Manager

March 7, 1951

Mr. P. A. Thomas
Proctorville,
Ohio

Dear Mr. Thomas:

This will verify your report of reception of WLEE operating in Richmond, Virginia on the frequency of 1480 kc with an output power of 5000 watts.

Our weekly program schedule is 6:00 A.M. to 1:00 A.M. EST on week days and from 6:30 A.M. to 1:00 A.M. on Sundays.

Our equipment consists of a Western Electric 5kw Transmitter and Phasing Gear. We have a four Tower Array directional both day and night.

All information contained in your report conforms with our operating log.

Here's wishing you much success with your DX-ing.

Sincerely yours,

A handwritten signature in dark ink that reads "George W. McGuigan". The signature is written in a cursive style with a large initial "G".

George W. McGuigan
Chief Engineer
