1,000 watts

19 January, 1951

Paul A. Thomas
Proctorsville, Ohio

Dear Paul,

Many thanks for your report of reception of WHWB on the morning of January 15. I am pleased to verify all the information you gave, and to hear that we were received satisfactorily.

WHWB is a daytime station, operating on 1000 kilocycles with a power of 1000 watts. The Transmitter is a Raytheon Model RA-1000. Our tower is a self-supporting 259-foot Lehigh, located 1.6 miles northwest of Rutland.

Thank you again for your report of reception. It was a pleasure to hear from you.

Cordially,

CENTRAL VERMONT BROADCASTING CORPORATION
