Paul A Thomas,
Proctorville, Ohio.
Dear Sir;

This is to verify your reception of KBRC on January 29th. KBRC broadcasts at this same time the fourth Thursday morning of each month.

From the information you sent you sent us it seems that the signal is really banging in down there.

Thanks for your report. Look forward to hearing from you again sometime.

Sincerely,

Walter E. Bjerke
Chief Engineer
KBRC Mt. Vernon, Wash.
