Dear Paul;

This is to confirm your reception of WKNA at 950 Kcs.
This station was on until 3:15 AM EST to broadcast the state
election returns.

Our power is 5000 watts daytime and 1000 watts night. We
are also beamed to protect south eastern stations. The program
consisted of music and speech as you stated. Incidentally we
also have an Fm signal at 97.5 Mcs. Would appreciate any comments
on reception at anytime.

Thank you for your report and sorri we have no QSL to confirm
with, but we have some on order.

Thank you again

Charles Husson W8ZFJ
Studio Engineer
